## Required Supplemental Materials:

### *Residency:*

Digital portfolio, preferably 10-15 pieces, CV, artist's statement, and a proposal dealing with your proposed project. Most important to the proposal are the animating concerns you seek to address. Suggestions for shared readings are a plus. Any technical ideas are important as well, but not required; developing the process of making the work will be an important part of the residency itself. Include proposed dates of residency.

### *Membership:*

Cover letter detailing past experience in printmaking and other media, a digital portfolio, preferably 10-15 pieces, CV, and an artist's statement.

### *Internship:*

Brief personal statement, summary of relevant experience and learning interests, your intended level of time commitment, and contact information for 2 references.

### *Exhibition/Project Proposal:*

Cover letter outlining your interest in exhibiting at Concrete Utopia, exhibition/project overview, list of artists included and digital portfolios by each proposed artist, curator/organizer CV including relevant past projects, and installation images of past projects (if available).

*All images should be submitted as 300dpi jpgs, in a zip file. Links to artists' websites are recommended, and video work should be linked through vimeo (preferable) or youtube. Please do not send video files. Any questions regarding Residencies, Membership and print shop-based Internships should be directed to [lane@concreteutopia.org](mailto:lane@concreteutopia.org), and any questions regarding Exhibition/Project Proposals and gallery-based Internships should be directed to [melanie@concreteutopia.org](mailto:melanie@concreteutopia.org).*

We look forward to hearing from you!
